# **Augustana College**

First Year Experience 101 10 MWF 8:30 Fall 2012

**IDEA Diagnostic Form Report** 

To learn more, see the Interpretive Guide: www.theideacenter.org/diagnosticguide.pdf

Of the 17 students enrolled, 16 responded (94%). Feedback from individual classes is always useful to guide improvement efforts. Typically, multiple classes should be used for evaluation, using more classes when they are small (fewer than 10) or when they have low response rates (less than 60%) (see www.theideacenter.org/AdminDecisions).

### **Summary Evaluation of Teaching Effectiveness**

Teaching effectiveness is assessed in two ways: **A. Progress on Relevant Objectives**, a weighted average of student ratings of the progress they reported on objectives selected as "Important" or "Essential" (double weighted) and **B. Overall Ratings**, the average student agreement with statements that the teacher and the course were excellent. The **SUMMARY EVALUATION** is the average of these two measures. Individual institutions may prefer to combine these measures in some other manner to arrive at a summary judgment.

<u>Converted Averages</u> are standardized scores that take into account the fact that the average ratings for items on the IDEA form are not equal; students report more progress on some objectives than on others. Converted scores all have the same average (50) and the same variability (a standard deviation of 10); about 40% of them will be between 45 and 55. Because measures are not perfectly reliable, it is best to regard the "true score" as lying within plus or minus 3 of the reported score.

For comparative purposes, use converted averages. Your converted averages are compared with those from all classes in the IDEA database. If enough classes are available, comparisons are also made with classes in the same broad *discipline* as this class and/or with all classes that used IDEA at your *institution*. The *Interpretive Guide* offers some suggestions for using comparative results; some institutions may prefer to establish their own "standards" based on raw or adjusted scores rather than on comparative standing.

Both <u>unadjusted</u> (raw) and <u>adjusted</u> averages are reported. The latter makes classes more comparable by considering factors that influence student ratings, yet are beyond the instructor's control. Scores are adjusted to take into account student desire to take the course regardless of who taught it (item 39), student work habits (item 43), instructor reported class size, and two multiple item measures (student effort not attributable to the instructor and course difficulty not attributable to the instructor).

#### **Your Average Scores**

	Your A (5-poin	_
	Raw	Adj.
A. Progress on Relevant Objectives <sup>1</sup>		
Four objectives were selected as relevant (Important or Essential – see page 2)	4.2	4.4

<sup>&</sup>lt;sup>2</sup> The process for computing Progress on Relevant Objectives for the Discipline and Institution was modified on May 1, 2006. Do not compare these results with reports generated prior to this date.

# Student Ratings of Learning on Relevant (Important and Essential) Objectives

Average unadjusted (raw) and adjusted progress ratings are shown below for those objectives you identified as "Important" or "Essential." **Progress on Relevant Objectives** (also shown on page 1) is a weighted average of student ratings of the progress they reported on objectives selected as "Important" or "Essential" (double weighted). The percent of students rating each as "1" or "2" (either "no" or "slight" progress) and as "4" or "5" ("substantial" or "exceptional" progress) is also reported. These results should help you identify objectives where improvement efforts might best be focused. Page 3 contains suggestions about the types of changes you might consider to obtain more satisfactory results. Also, refer to the **POD-IDEA Center Learning Notes** (www.theideacenter.org/podidea/PODNotesLearning.html).

	Importance Rating		verage nt scale)		ent of s Rating
		Raw Adj.		1 or 2 4 or 5	
21. Gaining factual knowledge (terminology, classifications, methods, trends)	Minor/None				
22. Learning fundamental principles, generalizations, or theories	Minor/None				
<ol> <li>Learning to apply course material (to improve thinking, problem solving, and decisions)</li> </ol>	Minor/None				
24. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course	Minor/None				
25. Acquiring skills in working with others as a member of a team	Minor/None				
Developing creative capacities (writing, inventing, designing, performing in art, music, drama, etc.)	Minor/None				
<ol> <li>Gaining a broader understanding and appreciation of intellectual/cultural activity (music, science, literature, etc.)</li> </ol>	Important	3.9	4.1	6%	63%
28. Developing skill in expressing myself orally or in writing	Essential	4.1	4.4	6%	81%
29. Learning how to find and use resources for answering questions or solving problems	Important	3.9	4.1	6%	75%
<ol> <li>Developing a clearer understanding of, and commitment to, personal values</li> </ol>	Minor/None				
31. Learning to <i>analyze</i> and <i>critically evaluate</i> ideas, arguments, and points of view	Important	4.8	4.9	0%	100%
<ol> <li>Acquiring an interest in learning more by asking my own questions and seeking answers</li> </ol>	Minor/None				
Progress on Relevant Objectives		4.2	4.4		

<sup>1</sup> The process for computing Progress on Relevant Objectives for the Discipline and Institution was
modified on May 1, 2006. Do not compare these results with reports generated prior to this date.

Lower = Next 20% (38-44)
Much Lower = Lowest 10% (37 or lower)

## **Description of Course and Students**

Students described the course by rating three items related to "level of academic challenge." Results cannot be interpreted as "good" or "bad"; in general, these ratings have a slight positive relationship with measures of academic achievement. The three items describing your students relate to their academic motivation and work habits and are key factors in developing adjusted ratings.

Course Description	Your Average (5-point scale)
33. Amount of reading	3.6
34. Amount of work in other (non-reading) assignments	2.9
35. Difficulty of subject matter	3.3

#### **Student Description**

37. I worked harder on this course than on most courses I have taken.	3.2
39. I really wanted to take this course regardless of who taught it.	3.1
43. As a rule, I put forth more effort than other students on academic work.	3.3

Your Converted Average When Compared to Group Averages

43	Lower	54	Similar	45	Similar
45	Similar	54	Similar	43	Lower
39	Lower	39	Lower	36	Much Lower

Much Higher = Highest 10% of classes (63 or higher)

Higher = Next 20% (56-62)
Similar = Middle 40% (45-55)
Lower = Next 20% (38-44)
Much Lower = Lowest 10% (37 or lower)

## **Improving Teaching Effectiveness**

One way to improve teaching effectiveness is to make more use of the teaching methods closely related to learning on specific objectives.

- Review page 2 to identify the objective(s) where improvements are most desirable.
- > Use the first column to answer the question, "Which of the 20 teaching methods are most related to learning on these objective(s)?"
- Review the next two columns to answer the question, "How did students rate my use of these important methods?"
- Read the last column to answer the question, "What changes should I consider in my teaching methods?"
- > Beyond specific methods, do the results suggest a general area (e.g., Stimulating Student Interest) where improvement efforts should be focused?

Suggested Actions are based on comparisons with ratings for classes of similar size and level of student motivation. **Consider increasing use** means you employed the method less frequently than those teaching similar classes. **Retain current use or consider increasing** means you employed the method with typical frequency. **Strength to retain** means you employed the method more frequently than those teaching similar classes. More detailed suggestions are in the **Interpretive Guide** (<u>www.theideacenter.org/fdiagnosticguide.pdf</u>), **POD-IDEA Center Notes** (<u>www.theideacenter.org/podidea</u>), and **POD-IDEA Center Learning Notes** (<u>www.theideacenter.org/podidea/PODNotesLearning.html</u>).

Stimulating Student Interest	Relevant to Objectives: (see page 2)
15. Inspired students to set and achieve goals which really challenged them	All selected objectives
Stimulated students to intellectual effort beyond that required by most courses	All selected objectives
13. Introduced stimulating ideas about the subject	All selected objectives
4. Demonstrated the importance and significance of the subject matter	Not relevant to objectives selected

Your Average (5-point scale)	Percent of Students Rating 4 or 5	Suggested Action
3.8	69%	Retain current use or consider increasing
4.3	81%	Strength to retain
4.6	100%	Strength to retain
4.8	94%	

#### **Fostering Student Collaboration**

16. Asked students to share ideas and experiences with others whose backgrounds and viewpoints differ from their own	27, 28, 31			
18. Asked students to help each other understand ideas or concepts	28, 29, 31			
5. Formed "teams" or "discussion groups" to facilitate learning	Not relevant to objectives selected			

4.6	94%	Strength to retain
4.5	100%	Strength to retain
4.2	81%	

### **Establishing Rapport**

2. Found ways to help students answer their own questions	All selected objectives
7. Explained the reasons for criticisms of students' academic performance	All selected objectives
1. Displayed a personal interest in students and their learning	28
20. Encouraged student-faculty interaction outside of class (office visits, phone calls, e-mails, etc.)	29

4.8	100%	Strength to retain
4.4	88%	Strength to retain
4.9	100%	Strength to retain
4.5	88%	Strength to retain

#### **Encouraging Student Involvement**

14. Involved students in "hands on" projects such as research, case studies, or "real life" activities	29
19. Gave projects, tests, or assignments that required original or creative thinking	All selected objectives
Encouraged students to use multiple resources (e.g. data banks, library holdings, outside experts) to improve understanding	29
11. Related course material to real life situations	Not relevant to objectives selected

3.2	38%	Consider increasing use
4.5	88%	Strength to retain
4.7	94%	

### **Structuring Classroom Experiences**

6. Made it clear how each topic fit into the course	27			
10. Explained course material clearly and concisely	27			
Scheduled course work (class activities, tests, projects) in ways which encouraged students to stay up-to-date in their work	Not relevant to objectives selected			
<ol> <li>Gave tests, projects, etc. that covered the most important points of the course</li> </ol>	Not relevant to objectives selected			
17. Provided timely and frequent feedback on tests, reports, projects, etc. to help students improve	Not relevant to objectives selected			

4.7	100%	Strength to retain
4.8	100%	Strength to retain
4.3	94%	
4.1	75%	
4.5	94%

The details on this page are of interest primarily to those who want to confirm scores reported on pages 1–3 or who want to determine if responses to some items were distributed in an unusual manner.

Converted Averages are reported only for relevant learning objectives (Important or Essential – see page 2) and other items for which comparisons were provided.
