I really enjoyed this class. Even though I thought that the material was quite difficult, Dr. Gould did a really great job explaining it. He is very knowledgeable in this area of study and really cares about his students.

Good job, Keep it up.

He was an excellent teacher. Very effective at explaining course material and seemed to have a genuine concern for the well-being of students.

Dr. Gould is a great instructor. You can tell that he is passionate about his work/field of study and wants to share it with others. He makes students excited about the material.

Going into this class, I was worried because philosophy sounded boring. But, what made this class so interesting and valuable was our discussions on the philosophical arguments. This made me more interested in philosophy and taking another class from you.

I believe every essay of mine was appropriately graded, and the topics in the essays helped you understand course material better.

I overall enjoyed taking this class, and wish to have more time for this class.

Amazing teacher! Taught class extremely well and engaged students very well. His passion for philosophy really showed and it made it very fun to come to class.

Dr. Gould was an excellent teacher, he really knew how keep class interesting as well as connecting it to the real world. He made topics very interesting to learn about overall and I would highly recommend this course and him as a teacher.

Dr. Gould is a great teacher. I truly enjoyed his class. Also this course has opened my eyes to Philosophy. I really liked the topics covered in the course and the great class discussions.

I thought he was a great teacher. He made philosophy, a subject I otherwise would have hated, interesting and enjoyable. Mr. Gould also helped me improve my arguments which carried over into other classes as well.

LSFY was required for all incoming first-years, & Dr. Gould was great. He challenged us to think about things, but he wasn't overbearing about it.
