[N.B.: I took over this course from another instructor exactly half-way through the term (because of a medical emergency) on extremely short notice.]

Considering Dr. Gould had to take over a class mid term, he kept interest and respect towards our class.

Dr. Gould stepped in for Professor Hill at week 5 and did an excellent job taking over, also, continuing the class by the syllabus we already had so no one got confused. I would definitely take another course with Gould if he was teaching a course in my interest.

Dr. Gould was an excellent professor. He did a great job adjusting to a new class halfway through the term. I would love to take another class from him again in the future.

Dr. Gould is an outstanding professor he is extremely intellectual when it comes to philosophy and he is always willing to help when needed.

I was impressed with how Dr. Gould handled the situation of coming into this class half way through. His notes and discussions were very informative. His grading is very strict, that has been my only concern. He justifies that, though, by wanting the best for his students.

I like how he wanted to make sure that we understood everything and I felt like I could go to him with any questions I had. Probably one of the best professors I've had here.

Even though I did not have any desire to take this class I am glad I got the chance to take a class with Dr. Deke. He did not have control over the amount of reading since it was Dr. Hill's syllabus but I do think the reading load was a lot. Overall Dr. Deke is an excellent professor. He does grade a little harsh, though.

Deke Gould is a very good professor.

Overall, Dr. Deke did a very good job stepping in for Dr. Hill. I always felt engaged and excited to learn what he was teaching.

this class is great. I like Dr. Gould's approach on the lectures during class. The discussions keeps the class from being boring. The ideas during class is really interesting.
