<ul style="list-style-type: none">Overall this course helped me develop critical thinking skills and opened my mind to opinions and ideas other than ones that I had previously held or known.He is a very fair professor.keep on keepin on, good class, good teacher, the only bummer is the hard grading but it is what it is.Hard course that will make students question if they are ready for college.I had a good time learning the course material. I thought you did a great job of explaining the complex material of the course.Makes you think more in-depth and engages you more than most professors. The content was very interesting and at times difficult, but still made me look forward to going to class.I loved the teaching method because he talked to us as intellectual equals but at the same time knowing the vast knowledge he had on many topicsI liked the course and enjoyed the discussion but at time I did get lost in how certain topics connected.His beard was intellectually stimulating.Being in Deke's class was always the breathe of fresh air I always needed when in my weeks. In between my other rigorous classes , arriving in Dr.Gould's class was an intellectual vacation for me to explore ideas and figure out things that were of actual relevance to my life rather than just think about topics for my courses and I'm honestly grateful for taking this class regardless of my grades.
