Qualitative

Comments -

- This course was very difficult at first. It was a new way of thinking but it really helped me think deeper about the world and to be able to portray my thoughts and arguments in a much better fashion.
- I really enjoyed this term with you. Thank you for pushing me to succeed past what was easy for me.
- Great teacher, enjoyed listening to him in class
- Dr. Gould is a good teacher, he makes you think in ways I never thought before.
- It was a fun class with good class discussions.
- I had a great time having and listening to the intellectual discussions we had in class.
- This class gave a new perspective of thinking and critical thinking as well. It challenged me to think in a new way and forced me to get out of my comfort zone with the assignments.
- He was a fantastic teacher who taught me more about arguing and education then all of my high school teachers combined.
- Was a really nice and understanding professor.

Do you have any additional comments about particular textbooks, access codes, course packets, etc. used in this class that would help your instructor make decisions about using them in the future or not? -

- nope
- No
- They helped but were not all utilized to their full potential.
- I feel that the rule book for arguments wasn't as important to this class as the other textbooks
